EQUIP YOUR FAN ZONE

SUBLIMATION

2026

This collection was created for fan zones, sporting events, and brands that want to be visible exactly where emotions run highest. It is a complete product line designed to build a cohesive, instantly recognisable identity — from stadium stands and urban events to everyday use.

The collection includes, among others: sublimated T-shirts (various fits), sweatshirts, scarves, bandanas, socks, headbands, caps, beanies, bags, towels, fleece blankets, and lanyards — all fully customisable to match your brand, team, or event identity.

EQUIP YOUR FAN ZONE

SUBLIMATION

CUSTOM APPAREL FOR TEAMS & EVENTS

The greatest strength of this collection is its fully bespoke approach. Every design is created to order — without templates, pre-defined layouts, or creative limitations. Colours, graphics, lettering, crests, patterns, and tournament motifs can be **fully customised** to match the visual identity of a brand, team, or event.

By using sublimation printing, the design is infused directly into the fabric structure. This results in a durable finish that is smooth to the touch, resistant to washing, and suitable for intensive use. Importantly, the print does not compromise fabric breathability and maintains its full colour intensity over time.

Sublimation offers unlimited design possibilities, including all-over prints across the entire product surface, seamless tonal transitions, complex graphics, and precise brand colour reproduction.

This solution is ideal for fan zones, sporting events, promotional campaigns, and special-edition collections — wherever visual impact, durability, and maximum brand recognition are essential.

T-SHIRT

LIONEL LIONEL

A functional and lightweight men's sports T-shirt, designed to deliver maximum comfort and performance during training. Thanks to sublimation printing technology, the design remains vibrant and long-lasting, enhancing the shirt's dynamic, athletic character. An ideal choice for those who appreciate classic solutions while valuing comfort and unrestricted freedom of movement.

FABRIC: 100% polyester.
A range of fabric options designed to meet different training needs:

- G – GOLF (125 gsm): Durable and comfortable fabric made from high-quality polyester.
- BE – BIRD'S EYE (130 gsm): Quick-drying material with excellent moisture-wicking properties.
- RBE – RECYCLED BIRD'S EYE (130 gsm): Sustainable, breathable, and fast-drying fabric.
- UL – QUICK DRY ULTRA LIGHT (100 gsm): Exceptionally lightweight fabric with superior ventilation.
- CM – COOL-MAX (135 gsm): Provides outstanding thermoregulation and rapid moisture management.

SIZE: S-XXXL

BAND

HEADBAND ALPINA ALPINA_SUBLI_25X10 024_23

This sports headband is made from a highly elastic, close-fitting knit that ensures a secure fit and lasting comfort during activity. The flat seam construction prevents skin irritation while keeping hair in place and providing protection against sun and wind. In addition, full customisation through sublimation printing technology allows for the creation of a unique design that highlights your individual style.

WEIGHT:	170 gsm
FABRIC:	80% polyester / 20% elastane
SIZE:	10 x 24 cm
COLOUR:	Sublimation 

SUBLIMATED SCARF

SCARF SCARF

A soft and lightweight polyester scarf designed for full customisation. Its smooth surface is ideal for sublimation printing, ensuring vibrant, long-lasting colours and sharp print details. The fabric feels pleasant to the touch, drapes well around the neck, and provides comfortable wear on cooler days.

Perfect as a stylish accessory, a key element of an apparel collection, or an eye-catching promotional product.

WEIGHT: 125 gsm
FABRIC: 100% polyester
SIZE: 155 cm x 17 cm

SUBLIMATED sunbed

SUNBEDSUBLIONE SIZE

A stylish and functional deck chair crafted from high-quality beech wood, kiln-dried and seasoned to ensure durability and an elegant finish. The solid frame, made from wooden slats with a 31 x 21 mm cross-section, provides excellent stability, while the three-position adjustment allows the seating angle to be tailored to individual comfort preferences. Additional elastic PVC safety elements prevent accidental folding during use.

The seat is made from a durable fabric with an appropriate weight, perfectly suited for full-colour sublimation printing. Each deck chair is produced to order — featuring your own custom graphic design. An ideal solution for events, promotional campaigns, and as a distinctive element of relaxation or fan zone areas.

- FABRIC:** 100% polyester coated, 190 gsm
- SIZE:** One size
- DECORATION:** Sublimation

CHALLENGER BLANKET

KOCCHALLENGER

A soft and pleasant-to-the-touch polyester blanket that combines comfort with full customisation options. One side is made from a smooth fabric perfectly suited for sublimation printing, ensuring vibrant, long-lasting colours and high-quality print results. The reverse side features a plush sherpa fabric in white or beige, providing warmth and exceptional softness.

Ideal for home use as well as an elegant and eye-catching promotional product.

- FABRIC:** 100% polyester, 460 gsm
- SIZE:** 120x150, 150x170
- DECORATION:** Sublimation

LANYARDS

SUBLIMATED LANYARD

A lanyard featuring full-colour sublimation printing, available in single-sided or double-sided versions. It is produced using a smooth, slightly glossy webbing that allows precise colour reproduction, including Pantone-matched colours. The number of colours used does not affect the price.

With single-sided printing, the reverse side of the webbing remains white and unprinted. In the double-sided option, each side of the lanyard can feature a different graphic design. This printing technology is particularly recommended for designs with a high number of colours, including tonal transitions, gradients, or photographic elements.

WIDTH: 10 mm, 15 mm, 20 mm, 25 mm

DECORATION: Sublimation
