OUR COLLECTION

SUBLIMATION

2026

ONE COLLECTION, ENDLESS POSSIBILITIES

This product line was created for brands, teams, and events that value consistency, functionality, and personalization—primarily within sportswear and active lifestyle segments. Modern cuts and a high level of wearing comfort make the collection perfectly suited both for physical activity and everyday use.

The collection includes sportswear, headwear, and accessories—T-shirts, singlets, long-sleeve tops, sweatshirts, leggings, caps, as well as drawstring backpacks, hats, towels, and sun loungers—designed in a unified style to create a cohesive and easily recognizable brand visual identity system.

SUBLIMATION

Sublimation is a marking technology ideal for sportswear, enabling the creation of full-color, durable prints across the entire surface of the product. Under high temperature, the print penetrates the fabric structure, making it imperceptible to the touch, not restricting breathability, and maintaining color intensity even after many washes.

This technology offers complete design freedom and works perfectly for sports, corporate, and event collections, where a cohesive and long-lasting visual effect is essential.

Multifunctionality

You can wear it as a neck gaiter, headband, beanie, bandana, face covering, or hair tie.

Full customization

Sublimation printing allows for any graphic design in excellent quality.

Universal size

Thanks to the elastic, soft fabric, it perfectly adapts to the shape of the head, ensuring comfort and a secure fit in any situation.

MULTIFUNCTIONAL TUBE

CERES SCSUB_1

A multifunctional sports tube that is lightweight, breathable, and quick-drying, ideal for both sports and everyday use. Full customization is available thanks to sublimation printing.

WEIGHT: 140 gsm
FABRIC: 100% Polyester
SIZE: 48 x 24 cm
