Short sleeve recycled polyester T-shirt with segmented tape

Fabric

Micro Bird-Eye.

100% recycled polyester
140gsm

— MICRO BIRD-EYE —

The Micro Bird-Eye fabric is designed to deliver maximum performance under demanding conditions. Thanks to its structure with a higher number of interfibrillar spaces, it significantly improves **breathability**, facilitating thermal regulation by maintaining body temperature in cold environments while optimizing sweat evaporation.

Its smoother surface provides a superior **soft feel** while maintaining flexibility. Additionally, being a more compact fabric, it offers greater **resistance** to intensive use and excellent performance against pilling, ensuring it retains its appearance and functionality for longer.

Tapes developed by Velilla Group

This segmented and heat-sealed reflective tape offers **optimal visibility** in low-light conditions. Its heat-sealed application ensures perfect integration with the garment, without seams, resulting in a more pleasant and **comfortable** surface to the touch.

Additionally, it is certified to **withstand** 50 washes at 60°C, maintaining its reflective properties and original appearance even after prolonged use.

Level of protection against ultraviolet rays UPF 50+.
Maximum achievable level, blocking over 98% of UVA and UVB rays.

This product is made with recycled polyester certified under the international GRS standard, using the equivalent of 23 post-consumer plastic bottles.

Washing instructions

Max temp. 30°C
Do not bleach
Iron max. 110°C
Do not tumble dry
Do not use the dryer
25 washing cycles

Recommended printing techniques

Transfer

Screen printing

RET Values

RET 1,9

RET: measures the breathability of the fabric; the lower the RET value, the higher the garment's breathability.

Pilling Values

4-5

Pilling: measures the fabric's resistance to abrasion on a scale from 1 to 5. The higher the value, the greater the resistance.

UPF Protection Values

50+

UPF: measures the protection provided by the fabric against the sun's ultraviolet (UV) rays.

Certifications

Garment certifications

EN 20471

2

Intermediate visibility level. Suitable for work in moderately hazardous environments, where there is low light or bad weather and traffic does not exceed 60 km/h.

ISO
13688

Quality standard regarding ergonomics, safety, size designation, aging, compatibility, and marking of protective clothing (P.P.E.)

ECO
design

Garment designed under the **Velilla Group Ecodesign management system ISO 14006**.

Certified by AENOR ISO 14006 ED-0002/2024

Global Recycled Standard, establishes the requirements for the certification of recycled material content

Velilla Group certifications

Management system that allows the company to control its environmental aspects.

Certified by AENOR ISO 14001 GA-2023/0227

Sets certified as Class 3

Sets certified as Class 3 according to the EN ISO 20471 standard **consist of an upper garment and trousers**, both individually certified (either as Class 1 or 2), which, when combined, **achieve the highest level of visibility and protection** for the user.
