

FALCONETTI® - ECO - Manual - Windproof - Ø 90 cm

Product Images

Description

A basic FALCONETTI® umbrella made from sustainable materials! The end piece of the 3-section ribs is made of high-quality fiberglass, known for its impressive strength and long-lasting performance. This makes the umbrella reliable and durable in use. The high-quality canopy of this umbrella is made entirely from recycled PET bottles, resulting in a durable, water-repellent, and environmentally responsible material. The umbrella is easy to open manually: simply slide the runner upward until it clicks into place – ready for use. The handle is made of black plastic and offers a firm grip.
